

Bipartite graph of Cards (left) and Triplets (rights) Properties: 3, Values: 3

A total of 9 cards have been chosen (marked red). Each possible valid triplet has an edge for each card it consists of, this is colored red if the card is selected in the solution. The number for each of the 1080 triplets indicate the number of cards in the triplet selected.

Note: see file figures/graph_3_3_9.pdf in order to zoom — to read the values
